Education

Savitribai Phule Pune University, India Artificial Intelligence & Data Science CGPA: 7.32 BE SGPA: 9.20	2021 - 2025
MIT Junior College, India HSC (Class XII), Percentage: 76.67%	2019 - 2021
Panditrao Agashe School, India SSC MSBSE (Class X), Percentage: 78%	2018 - 2019

Skills

| Python | Machine Learning | Data Analysis | Tableau | Mathematics | MySQL | Git | Github | Power BI

Work Experience

Codsoft Artificial Intelligence Intern Remote - Built a Rule-based chatbot using NLP & pre-defined rules which enabled the bot to recognize what was being talked about and provide responses in context. - Implemented collaborative and content-based filtering for a recommendation algorithm leading user personalization. - Developed a Tic Tac Toe game that is unbeatable, using Minimax algorithm to build Intelligent AI player with optimal moves improving Problem solving skills & efficiency in algorithms.	April'24 - May'24
ZCOER IN-HOUSE Data Analyst Pune - Increased business decision efficiency by more percentage by developing Tableau dashboards providing insightful insights. - My work involved in applying data visualization techniques to communicate trends, patterns, and insights, ensuring data-driven strategies aligned with business goals.	Jan'24 - April'24

Projects

AI Powered Legal Decision Making Assistance - Developed an AI-enabled chatbot for assisting in making legal judgments based on the Constitution of India. - ChatBot helps in providing perspectives and case views based on user queries, which is useful for individuals and small businesses to obtain legal advice. - Tools & Technologies: Python, NLP Frameworks, BERT Pretrained model, Hugging face libraries, Gradio for user interface, Torch, Transformers.	Aug'24 - May'25
Recommendation System - Built a content-based movie recommender system that suggests films by analyzing movie features and user preferences using cosine similarity. - Developed an interactive and user-friendly web interface with Streamlit for seamless movie discovery. - Enabled real-time, personalized recommendations to enhance user engagement and satisfaction.	April'24

Certifications

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate	Oct'25
Deloitte Data Analytics Job Simulation	Oct'25
Krish Naik Udemy Mathematics for Data Science & Gen AI	Nov'24
NASSCOM Digital 101 – 30 Hours	Oct'24
Great Learning Academy Python Data Structures	April'24
Great Learning Academy Data Visualization With Power BI	April'24
